#### Zootechnological additives per kg:

1,63 x10<sup>9</sup> KBE Bacillus subtilis (DSM 5750) and Bacillus licheniformis (DSM 5749) (4b1700i)

#### Composition:

50% skim milk powder, whey powder, vegetable oil refined (coconut, palm), dextrose, whey protein concentrate, rapeseed oil

#### Product properties:

**Mawel Lämmermilch** is the ideal full supply for lambs shortly after birth. Due to its high digestibility, **Mawel Lämmermilch** can be used directly after the first milk supply and is therefore ideal for the motherless rearing of sheep and goat lambs. High-quality ingredients, such as the particularly high proportion of skim milk, provide your lambs with all the essential nutrients needed for healthy development. Furthermore, **mawel Lämmermilch** contains probiotic microorganisms which can positively support the development of a stable intestinal function. The nutrients of essential amino acids, vitamins, minerals and bacterial cultures, which are coordinated in **mawel Lämmermilch**, make an indispensable contribution to vital and high-performance animals.
