

Product data sheet

mawel Alpaka und Kameliden

mawel alpaca and camelids

High quality camelid supplement feed

Fields of application:

- Supplementary feed for all camelids
- Ideal for breeding and rearing
- For optimal wool production

Properties:

- Vitamins
- Minerals
- Trace elements
- Small pellet (3 mm)
- Highly digestible
- High protein content
- High zinc content
- Linseed

Ingredients: 12.0 % crude protein, 4.0 % crude fat, 12.0 % crude fiber, 14.0 % crude ash, 1.00 % calcium, 0,5% phosphorus, 0,65 % sodium

NUTRITIONAL ADDITIVES per kg

17000 IU Vitamin A(3a672a), 2655 IU Vitamin D3(3a671), 300 mg Vitamin E(3a700), 40 mg Copper as Cu-(II)-sulfate, Pentahydrate (3b405), 89 mg Zinc as Zinc oxide(3b603, 44 mg Zinc sulfate, Monohydrate(3b605)), 100 mg Manganese as Mn-(II)-oxide(3b502),) 0.67 mg Cobalt as coated Co(II)carbonate granulate(3b304,) 2.7 mg Calcium iodate, anhydrous (3b202), 1.00 mg Selenium as sodium selenite (3b801)

Technological additives per kg:

23.3 mg Sepiolite(E562)

Composition:

Wheat bran, oat hull meal, rapeseed extraction meal with soap stock, dried beet molasses, palm kernel meal, triticale, corn, linseed, vinasse, beet molasses, sodium chloride,

calcium carbonate, magnesium oxide, mono-calcium phosphate.

Product properties:

mawel Alpaca and Camelids is the ideal supplementary feed for all camelid species. The balanced combination of nutrients provides the camelids with all important vital substances and can support a healthy development of the foals. **mawel Alpaca and Camelids** is therefore an ideal breeding feed. High-quality feed components such as linseed, in combination with the high zinc content, can positively support wool production.

Feeding recommendation:

- Alpaca: 100 g–200 g
- Alpaca (from 3 months before birth and during lactation): 200 g–400 g
- Lama: 200 g–300 g
- Lama (from 3 months before birth and during lactation): 300 g–600 g
- Camel: 500 g–700 g
- Camel (from 3 months before birth and during lactation): 800 g–1.000 g

Available in 20 kg bag
